

GODE SIVARAMAKRISHNA DURGAPRASAD

Software Engineer Intern Candidate — Distributed Systems & Cloud Infrastructure

godesivaramakrishna@gmail.com | +91 6304218886 | [linkedin.com/in/gsrk-durgaprasad-a00451291](https://www.linkedin.com/in/gsrk-durgaprasad-a00451291)
| github.com/Godesivaramakrishna

Summary

AWS Certified Developer Associate (2026) with hands-on experience building **distributed, scalable, and AI-integrated systems** on AWS and GCP. Designed and deployed production-grade cloud infrastructure using **IaC, containerization, and automated CI/CD pipelines**. Passionate about applying computer science fundamentals to real-world large-scale engineering challenges.

Technical Skills

Languages: Python, Java, SQL, JavaScript **Frameworks:** Spring Boot, FastAPI, Flask, React

Distributed Systems & Cloud: AWS Lambda, EC2, S3, API Gateway, DynamoDB, CloudWatch, IAM, Textract, Rekognition, CloudFormation, GCP Cloud Run

Data Structures & Algorithms: Arrays, Trees, Graphs, Dynamic Programming, Hashing, Sorting (200+ problems on LeetCode & GeeksforGeeks)

IaC, Containers & CI/CD: Terraform, Docker, Jenkins, GitHub Actions, SonarQube

Software Design: Microservices architecture, RESTful API design, client-server models, scalable database schemas

Internship

Cloud Infrastructure Intern — Technical Hub Pvt. Ltd. [\[Verify: THSI250499\]](#)

May 2025 – June 2025

- Designed and configured **distributed EC2 infrastructure** with VPC networking (subnets, route tables, security groups) to support scalable, isolated cloud application environments.
- Implemented **IAM roles and least-privilege access policies** enabling secure, multi-service communication on AWS; built a client-server model demonstrating real-world distributed application deployment.

Projects

CloudCompare AI: Distributed SaaS Platform for Cloud & AI Service Comparison

Team Lead, Cloud Developer

github.com/Godesivaramakrishna/Cloud-Compare-AI

- Architected a **large-scale, AI-integrated SaaS platform** enabling side-by-side comparison of cloud providers (AWS, Azure, GCP, OCI, Alibaba) and AI platforms (OpenAI, Anthropic, Google DeepMind) across pricing, scalability, performance, security, and regional availability.
- Integrated a **Groq (LLaMA 3.1) AI chatbot with an NLP engine** to handle natural language queries at scale, generating smart recommendations, cost estimates, and comparison reports with low-latency responses.
- Designed and provisioned a **fully distributed AWS stack using Terraform (IaC)**: React frontend on S3, API Gateway with HTTPS throttling and CORS, Dockerized Spring Boot microservice on EC2, and a private RDS MySQL database with multi-tier network isolation.
- Built a **Jenkins CI/CD pipeline** with automated Docker builds and EC2 deployments on every merge; integrated JUnit 5, JaCoCo (87%+ coverage), and SonarQube static analysis ensuring software reliability at scale.
- Stack:** Java 21, Spring Boot 3.2.5, React 19, Tailwind CSS, Chart.js, Terraform, AWS (S3, API Gateway, EC2, RDS), Docker, Jenkins, SonarQube, Groq AI, JWT, MySQL

Arogya Deeksha: Scalable Blood Donation Management System

Team Lead, Backend Developer

github.com/Godesivaramakrishna/blooddonation

- Deployed a **containerized Flask application on GCP Cloud Run** achieving cold-start under 1.5 seconds and zero idle cost via auto-scaling to zero; integrated **Google Maps API** for real-time geospatial donor and blood bank discovery.
- Designed a normalized **MySQL schema** for a 6-person distributed development team and fully automated container builds and production deployments via **GitHub Actions** on every merge to main, reducing deployment time by eliminating manual steps.
- Stack:** Python (Flask), Docker, GCP Cloud Run, GitHub Actions, Google Maps API, MySQL

Certifications

- AWS Certified Developer – Associate** — Amazon Web Services
Credential ID: 7635cd95-eeee6-4560-863e-d5861ffb8017 | [Verify Badge](#)
- Prompt Design in Vertex AI** — Google Cloud
Credential ID: 1178ca1c-555b-4f01-8325-92ea53f08e66 | [Verify Badge](#)
- Python Libraries for Data Science**

Issued: Mar 2026 Expires: Mar 2029

Issued: Sep 2025 No Expiry

March 2026

Education

Aditya College of Engineering and Technology, Surampalem

Aug 2023 – May 2027

B.Tech in Electronics and Communication Engineering

CGPA: 7.81 / 10.0

Pragati Junior College

June 2021 – May 2023

Intermediate (MPC)

776 / 1000

Competitive Programming & Problem Solving

[LeetCode](#) 200+ problems (Data Structures, Algorithms, DP) | [GeeksforGeeks](#) 200+ | [HackerRank](#) 3-star Python | [CodeChef](#) 1-star
